

Ideas

1. map

Combine and Refine

2 and 3

Fit

Too hard to find data

Too easy for assignment

Too many countries to stick on bar

Attributes

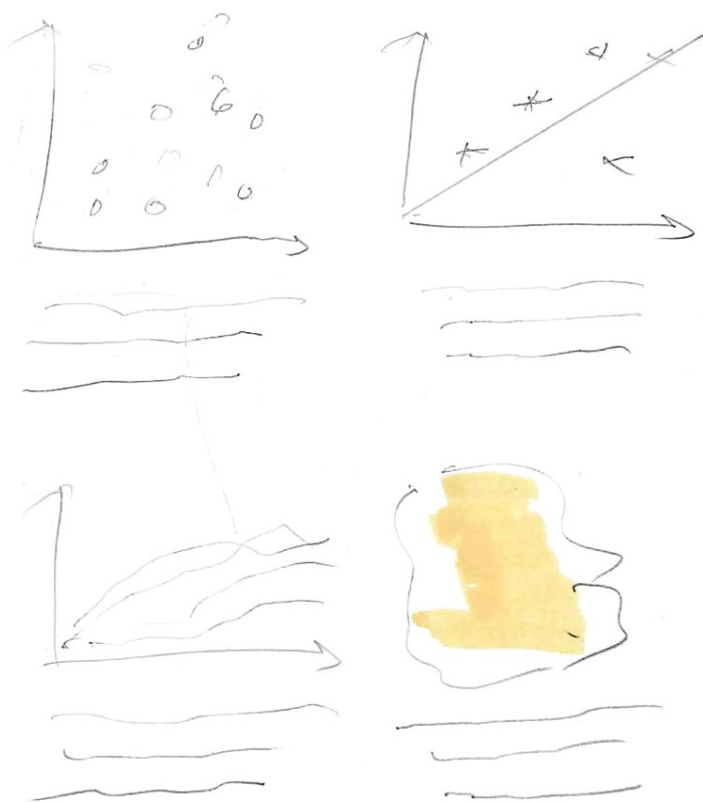

Qualitative  
Assist Ratio  
Goal Ratio  
Salary  
Not players

Quantitative  
Year  
Teams

Questions

Does concept align with goals and communicate insight

title

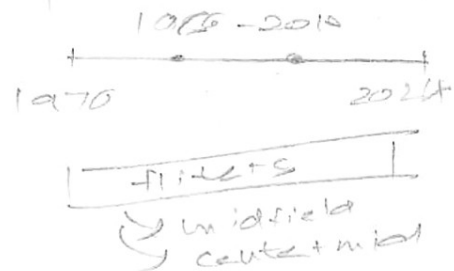

Brandon Pang Junyi  
Premier League Statistics

tooltips

when I click on  
a certain team it shows  
the highlighted pattern  
on bump chart

Filtering for the  
position of the players

Bright colours such as  
orange will instantly  
attract the viewer's  
eyes

main focus, catches  
viewer's attention

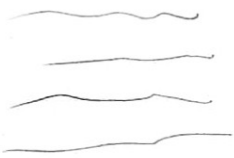

visualisation  
of data taken  
from each  
section

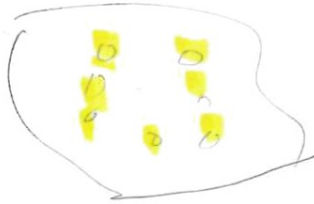

This dashboard  
is balanced, offering  
a clear consistent  
layout and visuals  
however it may  
not be very interactive

# Brandon Peng Jun 7: Premier League Insights

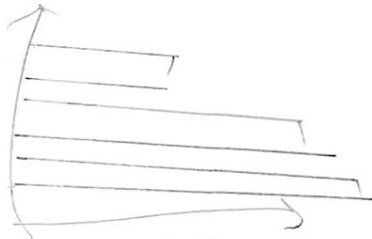

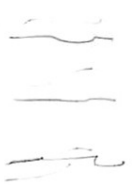

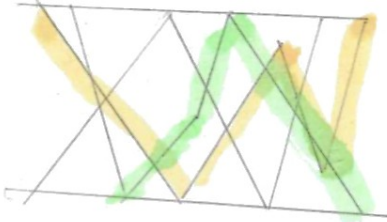

Text

map

Routing

add filters for zoom

search for teams and countries

Center on option

Size factor

efficiency threshold

minimum goals

positions

1970

2024

map focus should  
be the map need  
to make it bigger

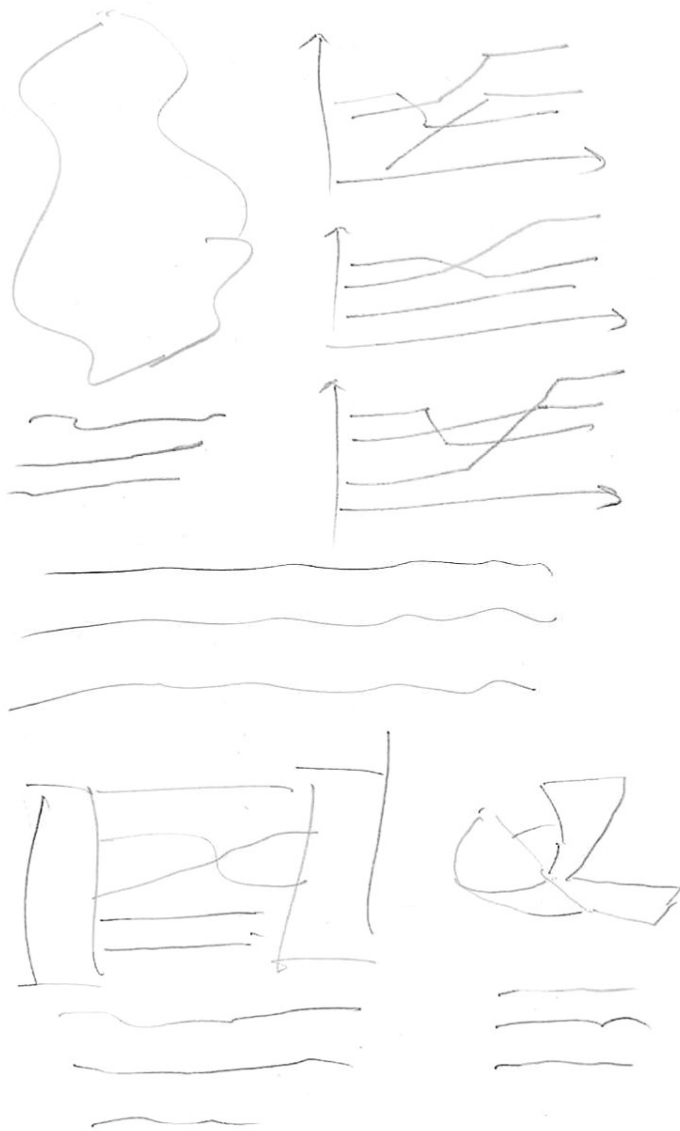

This is a balanced  
layout, don't want  
too much graph  
or text

map is maybe too  
small

Dashboard has good  
narrative but lacks  
overview and the  
layout is a bit  
confusing

# Title: Premier League Statistics

## Brandon Pang Jun Ji

### Region

enables user to focus on certain regions

### Zoom slider

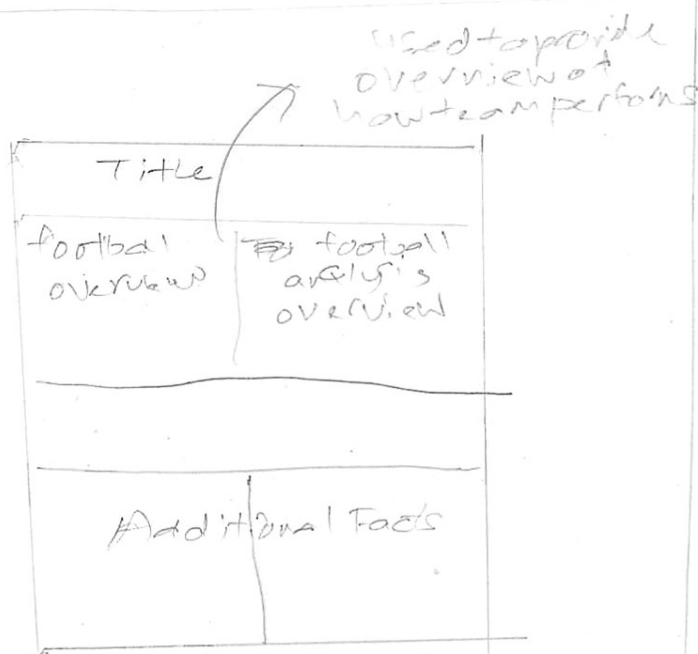

User can see data of different stadiums

### Year slider

User can see data and analyze trend throughout the years

### Tooltips

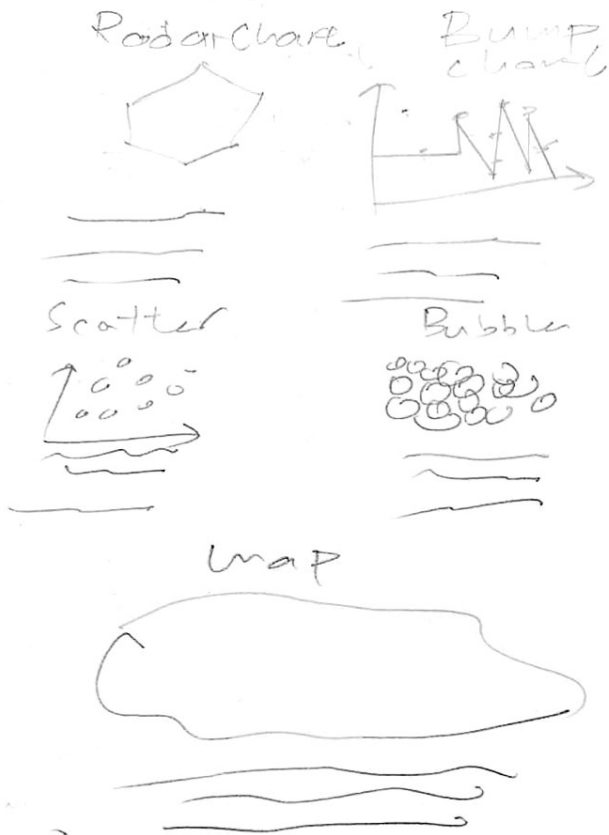

when hovering across bar chart it will show detailed data

Segmentation of information is clear, allow viewer to see

Viewer can see different perspective of different data vs may have clutter on smaller screen

## Discussion

This dashboard is balanced and consistent. It allows users to analyse football analytics by years and positions.
